REACH DECLARATION

REACH is the system for controlling chemicals within Europe and its aim is to improve the protection of human health and the environment.

As a responsible manufacturer, Lorlin Electronics Ltd seeks to ensure that we meet our obligations under these regulations.

Lorlin Electronics Ltd is defined as a downstream user. The products we supply to you are solely non-chemical products (goods). Moreover, and under normal and reasonably foreseeable circumstances of application, the goods supplied to you shall not release any substances.

The chemicals used by us never reach the lower limit of 1 tonne/year and for these reasons, Lorlin Electronics Ltd is not obliged to register any substance. Nonetheless, we are in regular communication with all our suppliers to ensure there is complete compliance throughout the supply chain.

The list of Candidate Substances (SVHC) may be assessed on the following website:
http://echa.europa.eu/chem_data/candidate_list_table_en.asp

Lorlin Electronics Ltd is not affected by any of the substances currently on the SVHC list and as a responsible company, we will endeavour to inform our customers for any changes which may be affected by REACH.

Yours sincerely

Lorlin Electronics Ltd
